

## **OT7C111 Side Motor Electric Chainsaw Unique design for fast and efficient cutting**

The OT7C111 side-mounted electric chainsaw is a uniquely designed chainsaw, its side-mounted motor can provide more efficient cutting. Compared with traditional rear-mounted motor chainsaws, the side-mounted motor of the OT7C111 can better balance weight and can complete cutting tasks in a shorter time.

The OT7C111 Side Mount Electric Chainsaw features a high-efficiency motor and a sharp chain that cuts through wood, planks, and branches with ease. It is also equipped with a safety lock button and a brake system to ensure safety during use.

In addition, the OT7C111 side-mounted electric chainsaw also has an easy-maintenance and cleaning design, with detachable parts for easy chain replacement and cleanliness.
